EDUCATION

Indian Institute of Engineering Science and Technology, Shibpur

BTech in Information Technology — CGPA : 8.74

Kolkata, India

Aug 2023 – July 2027

EXPERIENCE

Research Intern

AI4Bharat, IITM

Jan 2025 - Present

- Working under Dr. Raj Dabre and Dr. Anoop Kunchukuttan

Research Intern

IIT Bhubaneswar

Dec 2024 - Jan 2025

[Certificate](#)

- Worked on a Microsoft Academic Project Grant, named **Geospatial Knowledge Inference Using LLMs for Enhanced Travel Decision-Making**, under Dr. Shreya Ghosh and Dr. Abhik Jana

Research Apprentice

IIST Shibpur

June 2024 - Sept 2024

- Worked on the simulation and procurement of results on a research paper, on the topic of **Fault Control in Quadcopters using Deep Reinforcement Learning Techniques**.

PROJECTS

Neugrad

[Link](#)

- Built a lightweight autograd engine in Python and NumPy, with tensor operations, automatic differentiation, backpropagation, and a scalable design for deep learning, mimicking PyTorch for education and experimentation.

Solving ML Research Papers

[Link](#)

- Successfully implemented multiple **research papers**, like GPT, LLama, Mistral 7B etc.

Technical Blogs on Machine Learning Topics

[Link](#)

- Various technical blogs explaining concepts in NLP, LLMs in a easy way. Has cumulative **70,000 readers** till date.

COURSES AND CERTIFICATIONS

- **Courses Covered in College:** Data Structures and Algorithms, DBMS, Digital Logic/ Circuit Design, Theory of Computation, Object Oriented Programming, Computer Architecture and Organization, Probability and Statistics, Linear Algebra, Calculus, Number Theory

- **CS231n - Deep Learning for Computer Vision** by Stanford University

SKILLS & INTERESTS

Programming Languages: Python, C, C++, Java, Javascript, MATLAB, VHDL

Machine Learning: Pytorch, Spacy, Stable Baselines 3, Unsloth, OpenCV, Pandas, Numpy, Matplotlib

Additional: HTML, CSS, Mujoco, Gym, MySQL, MongoDB

AWARDS

Multiple Award-Winning Projects at Hackathons

IIST Shibpur

- Won Cody Challenge** organized by MATLAB; Won **1st Prize** in ML Hackathon at Braindead 2025; Earned **Runners Up** in Institutional Startup Competition for Auto@Kol; **Runners Up** in MCode Metallum 25' ; and **2nd Runners Up** in Hacknovare' Instruo 2025

Selected for The Residency 2025 (backed by OpenAI)

[Link](#)

Qualified KVPY and JBNSTS Scholar
